WHY PUBLISH WITH US?

Publication looks good on any resume!

What are we looking for?

- After successfully launching Issue 1 we are looking for papers (articles or your thesis) for Issue 2.
- The review is available in various libraries in different countries and public institutions, giving your article a wide audience.

Where do I send my article and what happens next?

- You send your article to journal@dublinlpr.ie confirming that it is your work and not being considered for publication elsewhere.
- Our editors will provide feedback on your article and suggest edits, before sending it for peer-review. Once the final edits have been made, you sign our publication agreement and it will be included in the next issue.

I wrote an excellent paper but not a thesis, is this a problem?

- No, all good work is eligible for publication!
